

APB-200 SERIES

反射率を10%以下に抑えながら、APB-200TRT01にて1%以下の透過率を実現し、透過性の高い材料において裏面への光の漏れをシャットアウト。

The APB-200TRT01 realizes a low-transmittance of 1% of less while suppressing the reflectance to 10% or less.

Light leakage to the rear of high permeation property material is shut out.
